SECTION 2 — AUTHOR DECLARATIONS

Each author confirms, by signing in Section 5, that all of the following are true. Tick each box.

- ☐ ORIGINALITY. The manuscript is our own original work, has not been published previously in whole or in substantial part, and is not under consideration by any other journal.
- ☐ PLAGIARISM. All sources are properly cited. The manuscript has been checked with similarity-detection software and we accept that a similarity index above the journal threshold may lead to rejection.
- ☐ AUTHORSHIP. Every named author meets the ICMJE authorship criteria — substantial contribution, drafting or critical revision, final approval, and accountability. No person entitled to authorship has been omitted, and no honorary or guest authors have been added.
- ☐ DATA INTEGRITY. All data, figures, images and results are authentic. No image has been manipulated to misrepresent a result, and no data have been fabricated, falsified or selectively omitted.
- ☐ ETHICS. Research involving humans, animals, or personal data received approval from the appropriate ethics committee (reference given in the manuscript), and informed consent was obtained where required.
- ☐ CONFLICT OF INTEREST. All financial, personal and institutional interests that could be perceived to influence the work have been disclosed in the manuscript.

- ☐ **FUNDING.** All sources of funding and grant numbers are disclosed in the manuscript.
- ☐ **GENERATIVE AI.** Any use of generative AI tools has been disclosed in the manuscript. No AI tool is listed as an author. The authors take full responsibility for all content, including any content produced with AI assistance.
- ☐ **THIRD-PARTY MATERIAL.** Written permission has been obtained for every figure, table, or extended quotation reproduced from a copyrighted source, and the source is acknowledged in the caption.

SECTION 3 — GRANT OF LICENCE

- 3.1** Copyright retained. The Author(s) retain full copyright and all proprietary rights in the Article. Nothing in this form transfers or assigns copyright to the Publisher.
- 3.2** Licence granted. The Author(s) grant VIDWAN Journals ("the Publisher") an irrevocable, worldwide, royalty-free licence to publish, reproduce, distribute, display and archive the Article — including the right to publish it in print, electronic and any other medium, and to deposit it with indexing services, abstracting databases and preservation archives.
- 3.3** Open access licence. Upon publication the Article will be released under the Creative Commons Attribution 4.0 International Licence (CC BY 4.0), permitting anyone to copy, redistribute, adapt and build upon the Article, including commercially, provided the original authors and source are credited. The Author(s) confirm they have read and accept the terms of CC BY 4.0.
- 3.4** First publication. The Author(s) grant the Publisher the right of first publication. The licence in 3.2 becomes effective on the date of acceptance and is contingent upon publication of the Article.
- 3.5** Rights retained by authors. Without seeking further permission, the Author(s) may: reuse the Article or any part of it in a thesis, book or subsequent work; post the accepted and published versions on a personal website, institutional repository or preprint server, with a link to the version of record; reproduce the Article for teaching; and make any other use permitted by CC BY 4.0.
- 3.6** Attribution. Any reuse by the Publisher or by third parties shall credit the Author(s) and cite the journal, volume, page range and DOI as the version of record.

SECTION 4 — WARRANTIES AND LIABILITY

- 4.1** The Author(s) warrant that the Article contains nothing defamatory, unlawful, or infringing of any copyright, privacy right, or other right of any person, and that all statements asserted as fact are true or based on reasonable research.
- 4.2** The Author(s) warrant that they have full authority to grant the licence in Section 3, and that where the work was carried out under an employment or funding agreement, any necessary institutional or employer consent has been obtained.
- 4.3** The Author(s) shall indemnify the Publisher against any loss arising from a breach of these warranties. The Publisher shall not be liable for any loss arising from the publication of the Article save where caused by the Publisher's own negligence.
- 4.4** Retraction and correction. The Publisher reserves the right, following the COPE guidelines, to issue a correction, expression of concern, or retraction where a breach of Section 2 is established after publication.
- 4.5** Crown / Government employees. Authors who are employees of a government or intergovernmental body and cannot grant the above licence in their own right should tick here ☐ and attach their institution's standard clause.

SECTION 5 — SIGNATURES OF ALL AUTHORS

Every author must sign. A typed name in an e-mail from the author’s institutional address, or a scanned/digital signature, is accepted. The corresponding author may sign on behalf of co-authors only where written authorisation from each co-author is attached.
